

Återbrukslabbet

The webpage for Återbrukslabbet can be found at aterbrukslabbet.nu (<https://aterbrukslabbet.nu>).

Development Documents

- [Setup](#) ([docs/setup.md](#)),
- [Development Environment](#) ([docs/environments-languages.md](#)),
- [Licenses](#) ([docs/licenses.md](#)),
- [Command List](#) ([docs/command-list.md](#)).

Running the project

Running in development mode

Run the following in a terminal to run the project in development mode:

```
pnpm dev
```

This opens the following ports:

- localhost:3000 (<http://localhost:3000>) for accessing the web page.
- localhost:4000 (<http://localhost:4000>) for accessing Prisma Studio.
- localhost:5000 (<http://localhost:5000>) for accessing React Mail templates.

Running in production mode

1. Run the following in a terminal to create a production build of the project:

```
pnpm build
```

2. Run the following to start the production server:

```
pnpm start
```

Alternatively, run the following to do both in a single command:

```
pnpm launch
```

Backlog

A backlog of features can be found at [axelNTI/Projects/Återbrukslabbet](https://github.com/users/axelNTI/projects/2/views/1)
(<https://github.com/users/axelNTI/projects/2/views/1>).

Fonts

This project uses [next/font](https://nextjs.org/docs/basic-features/font-optimization) (<https://nextjs.org/docs/basic-features/font-optimization>) to automatically optimize and load fonts from Google Fonts.

Developed by Simon Clavensjö, Lukas Gustafsson, Mohamad Hamdan, Ambjörn Hogmark, Axel Thornberg, Tim Kelso, David Cavalli-Björkman, and Eskil Tornberg.
